27. Distribution of Applications by LRP and Race (New)	65
28. Distribution of Awards by Race (New)	66
29. Applicant Demographics by Ethnicity (New)	67
30. Awardee Demographics by Ethnicity (New)	68
31. Years to First Renewal Award	69
32. Distribution Awardees by State (New)	70

Note: Numbers and statistics reported on the program are the result of a consistent methodology established by the revision date of this document. Documents published previously may show slight discrepancies.

NIH Loan Repayment Programs

Facilitating the Path to a Biomedical Research Career

The National Institutes of Health (NIH) Extramural Loan Repayment Programs (LRP) help attract and retain early career health professionals by helping them to repay the high educational debt associated with medical education and training.

Since 1998, the U.S. Congress has created eight loan repayment programs administered by NIH -- three for individuals who conduct research as employees of the NIH (Intramural) and five for individuals who conduct research funded by domestic non-profit institutions or U.S. government organizations (Extramural). Extramural programs are available in five research areas: clinical, pediatric, health disparities, contraception and infertility, and clinical research for individuals from disadvantaged backgrounds.

The LRPs repay up to \$35,000 of eligible educational debt per year, and to be considered for these programs, applicants must commit to performing qualified research for at least two years. They must also possess a doctoral degree or advanced certification; have educational loan debt equal to at least 20 percent of their annual salary; conduct research for an average of at least 20 hours per week; and be a U.S. citizen or permanent resident. Awardees may apply for additional one- or two-year renewal awards as long as they continue to meet the eligibility requirements.

Acronyms

IC = NIH Institutes and Centers

LRP = Loan Repayment Program(s)

New = First award

Renew = Subsequent award(s)

Academic Doctorate = PhD, DrPH, EdD, or ScD degree

Physician Doctorate = MD or DO degree

Physician Doctorate + Academia Doctorate = dual MD/PhD degrees

Professional Clinical Doctorate = DDS, DMD, DVM, DPT, ND, OD, PharmD, or PsyD degrees

NIH Institutes and Centers (IC)

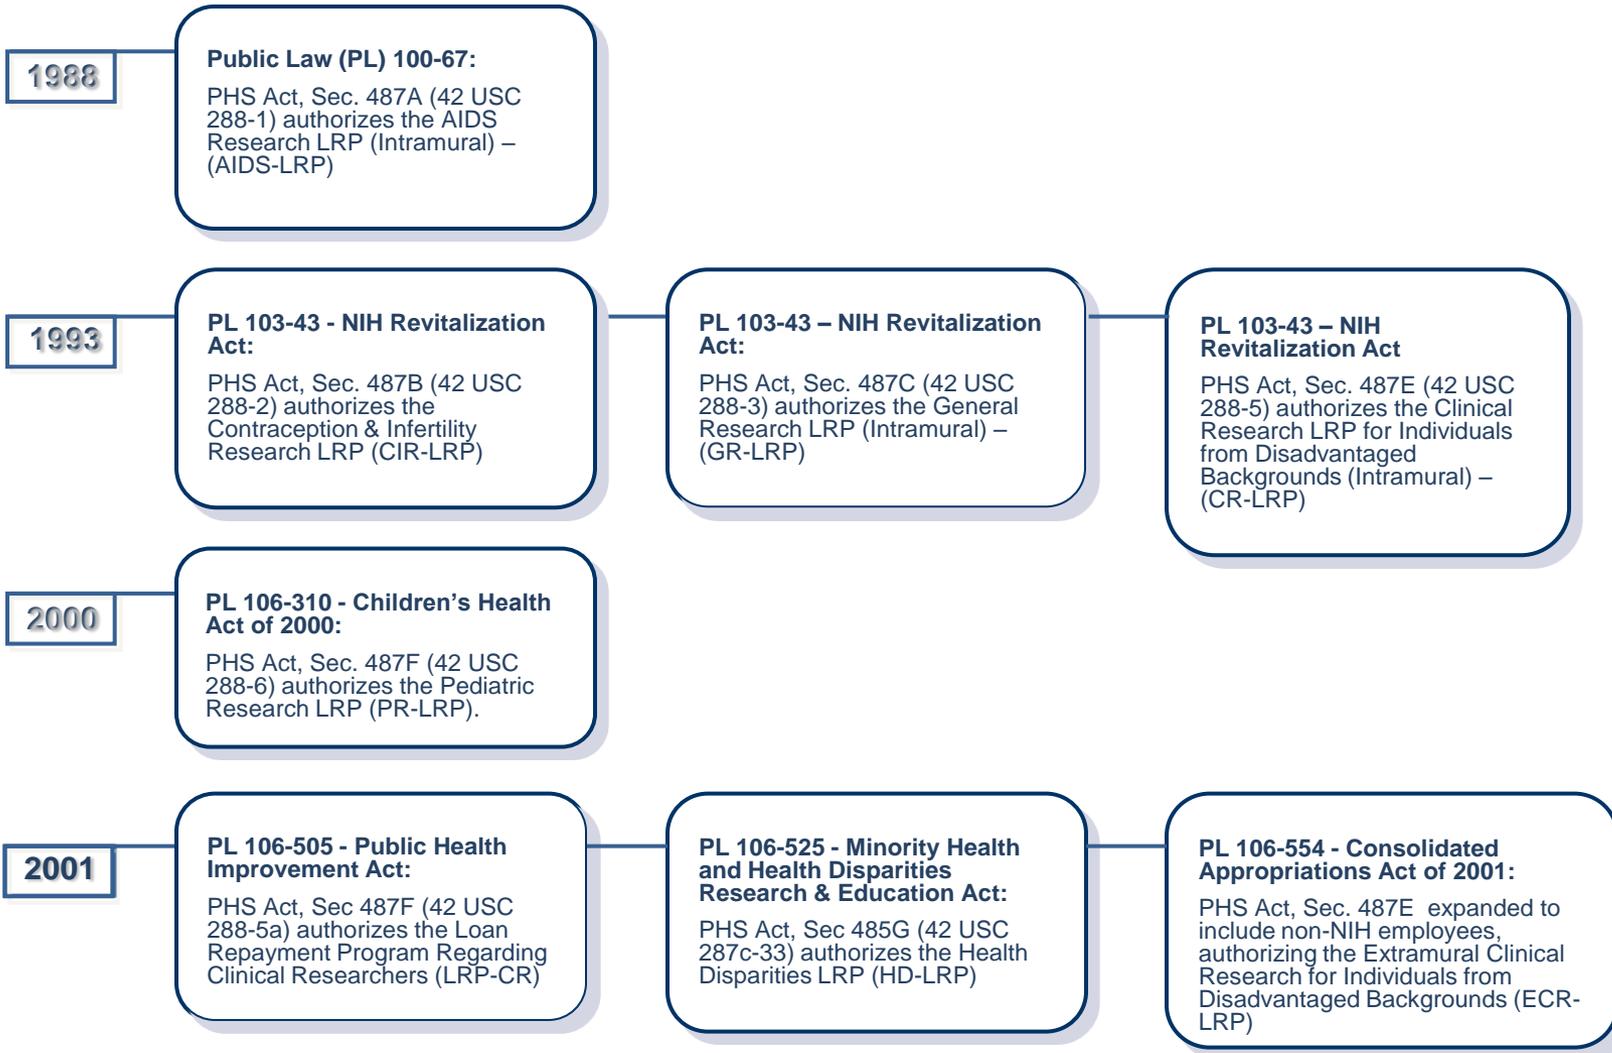

Institutes

National Cancer Institute (NCI)
National Eye Institute (NEI)
National Heart, Lung, and Blood Institute (NHLBI)
National Human Genome Research Institute (NHGRI)
National Institute on Aging (NIA)
National Institute on Alcohol Abuse and Alcoholism (NIAAA)
National Institute of Allergy and Infectious Diseases (NIAID)
National Institute of Arthritis and Musculoskeletal and Skin Diseases (NIAMS)
National Institute of Biomedical Imaging and Bioengineering (NIBIB)
Eunice Kennedy Shriver National Institute of Child Health and Human Development (NICHD)
National Institute on Deafness and Other Communication Disorders (NIDCD)
National Institute of Dental and Craniofacial Research (NIDCR)
National Institute of Diabetes and Digestive and Kidney Diseases (NIDDK)
National Institute on Drug Abuse (NIDA)
National Institute of Environmental Health Sciences (NIEHS)
National Institute of General Medical Sciences (NIGMS)
National Institute of Mental Health (NIMH)
National Institute of Neurological Disorders and Stroke (NINDS)
National Institute of Nursing Research (NINR)
National Institute of Biomedical Imaging and Bioengineering (NIBIB)
National Library of Medicine (NLM)
National Institute on Minority Health and Health Disparities (NIMHD)

Centers

John E. Fogarty International Center (FIC)
National Center for Complementary and Alternative Medicine (NCCAM)
National Center for Advancing Translational Sciences (NCATS; established in 2011)
National Center for Research Resources (NCRR; discontinued in 2011)
Clinical Center (CC)
Center for Information Technology (CIT)

Legislative History

Executive Summary

- The NIH LRP have made approximately 15,508 awards totaling more than \$714 million.
- 26 NIH Institutes and Centers have distributed awards. Since 2003, the National Cancer Institute (NCI), National Heart, Lung, and Blood Institute (NHLBI), National Institute on Minority Health and Health Disparities (NIHMD), National Institute of Allergy and Infectious Diseases (NIAID) and National Institute of Child Health and Human Development (NICHD) have each contributed more than \$50 million to the LRPs.*
- Applicants' overall success rate is 50 percent. Thirty-nine percent of new and 69 percent of renewal applicants have received awards.
- Of the 5 programs, Clinical Research and Pediatric Research are the largest and account for nearly 81 percent of all awards.
- Applications grew by 32 percent from 2004 to 2005, but have been stable since 2005.
- The average debt of new award recipients is \$95,235. Over 40 percent of new awardees have reported more than \$100,000 of eligible educational debt.
- Overall, men and women have been equally competitive. However, more women have received awards from the Health Disparities Research LRP.

* For a full list of NIH Institutes and Centers, please see page 6.

The Five Extramural Loan Repayment Programs

Clinical Research

Clinical research is patient-oriented clinical research conducted with human subjects, or research on the causes and consequences of disease in human populations involving material of human origin (such as tissue specimens and cognitive phenomena) for which an investigator or colleague directly interacts with human subjects in an outpatient or inpatient setting to clarify a problem in human physiology, pathophysiology or disease, or epidemiologic or behavioral studies, outcomes research or health services research, or developing new technologies, therapeutic interventions, or clinical trials.

Pediatric Research

Qualified Pediatric Research is defined as research directly related to diseases, disorders, and other conditions in children.

Health Disparities Research

The scope of research qualified for this program includes basic research, clinical research or behavioral research directly related to health disparity populations and the medically underserved. Group is defined as a health disparity population: if there is a significant disparity in the overall rate of disease incidence, prevalence, morbidity, mortality, or survival rates in the population as compared to the health status of the general population.

Clinical Research for Individuals from Disadvantaged Backgrounds

For this program, an individual from a disadvantaged background is defined according to low family income levels set by the U.S. Bureau of the Census – as published in the Federal Register.

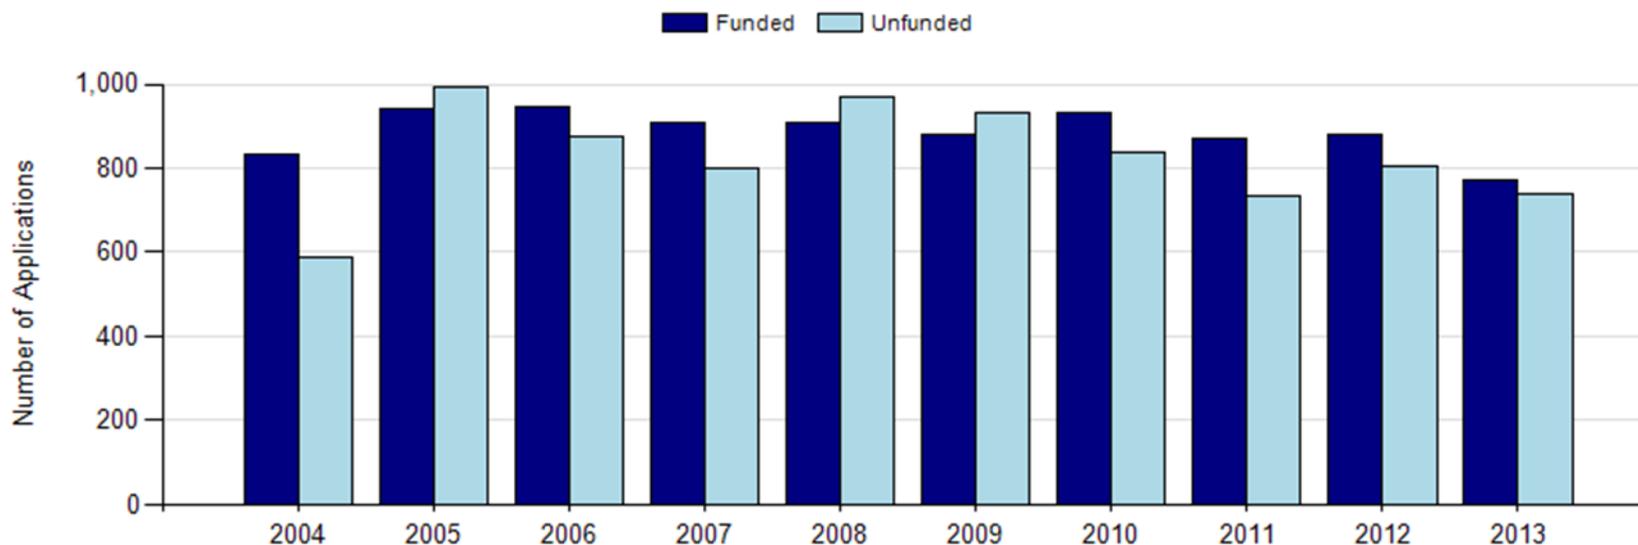

To meet this low-income requirement candidates must demonstrate their disadvantaged status by submitting (1) a written statement from former school(s) where he/she qualified for Federal disadvantaged assistance, (2) verification of receipt of loans from either the Health Professions Student Loans (HPSL) or Loans for Disadvantaged Student Program, or (3) verification of a scholarship from the U.S. Department of Health and Human Services under the Scholarship for Individuals with Exceptional Financial Need.

Contraception and Infertility Research

Contraception research is defined as research whose ultimate goal is to provide new or improved methods of preventing pregnancy. Infertility research is defined as research whose long-range objective is to evaluate, treat, or ameliorate conditions which result in the failure of couples to either conceive or bear young.

Years To First Renewal Award

(Awardees whose 1st award began 2004-2011 and were awarded with renewal award, n=3,494*)

*Excluded are 21 individuals who had first renewal awards shorter than one year and total years in LRP was less than 3 years. For individuals that changed program during 2004-2011 (n=6) each program that has one new and one renewal award is counted. All 6 individuals that changed programs between 2004 and 2011 had only one program with one new and one renewal award that was counted. Excluded are 3 individuals that had award length longer than 2 years.

Distribution of Awardees by State (New)

Number of Participants	States*
0	WY
1-25	AK, AR, DE, HI, ID, ME, MT, ND, NE, NH, NV, OK, PR, SD, VT, WV
26-50	AZ, KS, KY, LA, MS, NJ, NM
