

The NIH Loan Repayment Programs Launches New Interactive Dashboard

By: Jill Mattia, PhD and Omar McCrimmon

The Division of Loan Repayment (DLR) is excited to announce the launch of a new interactive LRP data dashboard! Offering a bold new interface and easy access to trend information about the Loan Repayment Programs (LRPs), the dashboard will make accessing and displaying LRP information and data easier to understand and export.

Key features from the Dashboard include:

- Ready access to yearly program statistics
- 11 data widgets that can be adjusted/filtered by year, LRP and award type that can be flipped to reveal associated data
- Easy export of all data to an Excel compatible format

Upcoming versions will include the expansion of available data and development of new display widgets. **Please note: Dashboard display and performance is optimized with the latest version of Chrome.**

The new dashboard can be accessed via [Data and Reports](#) on the LRP homepage or directly at <https://dashboard.lrp.nih.gov>. If you have any questions regarding the LRP Dashboard, feel free to send an email to lrp.communications@mail.nih.gov
