

NATIONAL INSTITUTES OF HEALTH LOAN REPAYMENT PROGRAMS

Instruction Guide for Intramural LRP Applicants

For the application cycle opening on January 3, 2022

NEW INFORMATION FOR FY 2022 LRP APPLICATIONS

There are important updates to the National Institutes of Health (NIH) Loan Repayment Programs (LRPs) application when you apply for an FY 2022 LRP award. Please read the notes below carefully.

The LRP Application is now part of ASSIST

The Application Submission System & Interface for Submission Tracking (ASSIST) system is used to prepare and submit applications electronically to NIH and other Public Health Service agencies. The NIH LRP application is now part of ASSIST. To access ASSIST, an eRA commons ID is required. You will not be able to start or submit your LRP application without an eRA commons ID with a Principal Investigator (PI) role associated with your NIH IC. If you do not have a commons ID with a PI role, you should obtain one by contacting your [IC Coordinator](#). ASSIST can be accessed via this link: <https://public.era.nih.gov/assist>. Once you have logged in, click “Go” for the “Initiate LRP” option to start or access your LRP application.

Since the LRP application has changed for both new and renewal applicants, we strongly encourage all applicants to carefully review this guide in its entirety prior to starting their applications.

General Research for ACGME Fellows

The General Research for LRP fellow application does not undergo peer-review and thus is comprised of fewer research documents. General Research for ACGME fellows can refer to the instruction guide where appropriate. Please refer to the ACGME section of the LRP website for more information <https://www.lrp.nih.gov/program/applicants/intramural/general-research-acgme-fellows>. Importantly, the ACGME application should be submitted as early as possible, as there is a limited number of non-competitive slots available.

PRE-APPLICATION CHECKLIST FOR INTRAMURAL LRP APPLICANTS

IMPORTANT NOTE: This checklist is only applicable to the competitive Intramural LRP. Applicants for the noncompetitive ACGME subcategory should not refer to this checklist.

The NIH Loan Repayment Programs (LRPs) employs the NIH Application Submission System & Interface for Submission Tracking (ASSIST) to facilitate the electronic submission of your LRP application. The LRP application in ASSIST is divided into ten sections and collects information that will allow NIH to determine your overall eligibility and suitability for an LRP award. The Intramural LRP application opens on January 3, 2022. You are strongly encouraged to review and complete the checklist below prior to starting your application. Doing so will greatly streamline the application process and allow you to make a timely submission.

- If you do not have one already, obtain an NIH Commons ID with a PI role.
- Read all eligibility information and ensure that you qualify for the NIH Intramural LRP.
- Read the information for each of the three Intramural LRP subcategories. They have different contract lengths and eligibility requirements.
- Talk to your Research Supervisor about your LRP application. Your research supervisor also serves as your LRP mentor and will be asked to submit a reference letter. If you receive an award, your Research Supervisor will be asked to verify your quarterly research.
- Speak with your Intramural LRP Coordinator in your IC about your eligibility. Your IC Coordinator will provide you with their Commons ID needed for the colleague section of the LRP application. If you receive an award, your Intramural LRP coordinator will be asked to verify your quarterly service.

- New applicants must contact a minimum of 3, but no more than 5 individuals, and request them to submit a reference letter on your behalf. Your supervisor is required to be one of your referees.
- Renewal applicants may only submit a single letter of recommendation that must come from your LRP supervisor.
- Draft your Research Documents. Detailed explanations of the documents you will submit as part of your application can be found on pages 13–15 of this Instruction Guide.
- When the LRP application opens in ASSIST on January 3, log on, complete, and submit your LRP Application prior to the application deadline.

Following the steps listed above will ensure that your application is complete, thorough, and competitive. If you have questions about your LRP application, please contact the LRP Information Center at 866-849-4047 or by email at lrp@nih.gov, Monday through Friday from 9:00 AM to 5:00 PM, EST.

IMPORTANT INFORMATION FOR INTRAMURAL LRP APPLICANTS

COMPETITIVE INTRAMURAL LRP APPLICATION DEADLINE IS ON MARCH 15, 2022

The application deadline for the competitive programs will fall on Tuesday, March 15, 2022. We recommend that you submit your application ahead of the deadline and be aware that your colleague support must be submitted by the deadline as well. You should complete the Colleague Information section of the application at least two weeks before the deadline to give your referees, supervisor, and IC LRP Coordinator time to submit supporting documents by the deadline.

NONCOMPETITIVE ACGME LRP APPLICATION DEADLINE IS APRIL 15, 2022

The application deadline for the noncompetitive General Research for ACGME Fellows program will fall on Friday, April 15, 2022. Please refer to the ACGME section of the LRP website for more information <https://www.lrp.nih.gov/program/applicants/intramural/general-research-acgme-fellows>. Importantly, the ACGME application should be submitted as early as possible, as there is a limited number of non-competitive slots available.

PREPARATION FOR FINANCIAL REVIEW

When applying for a new LRP award, applicants will be required to provide documentation to demonstrate that their educational loans are eligible for loan repayment by the NIH. Applicants are strongly urged to start contacting lenders immediately after submitting their LRP applications. It can take weeks or months to gather the required documentation and it is never too early to start collecting loan documents. All loans require account statements, promissory notes, and Federal Student Aid (FSA) reports. Visit www.studentaid.gov and register to obtain your reports. Review the Detailed Loan Information page on the LRP website for additional information on Loan Documentation: <https://www.lrp.nih.gov/detailed-loan-info>.

GENERAL

This guide will provide detailed instructions, information, and assistance as you complete your LRP application.

INITIATE LOAN REPAYMENT PROGRAM APPLICATION

It is your responsibility, as the applicant, to read and understand the eligibility requirements prior to starting an LRP application.

Award Type:

Select “New” if you meet at least one of the following conditions:

- You never received an LRP award before;
- You previously received an LRP award, but your most recent LRP award ended more than 37 months before the start date of your next anticipated LRP contact; or

Select “Renewal” if you meet both of the following conditions:

- You received an LRP award in the past and your most recent LRP award ended less than 37 months before the start date of your next anticipated LRP contract; and
- You are remaining in the same LRP (Extramural or Intramural)

LRP Subcategory:

Select one LRP subcategory from the drop-down list.

Mentored Research Scientist or Independent Investigator:

All Intramural LRP applicants are mentored research scientists. This selection is automatically set to “Mentored Research Scientist.”

Organization:

Select your organization from the drop-down list. The organization you choose must be your NIH IC.

Changing LRP Subcategories (Actions menu):

This feature allows you to change the options you selected on the Initiate Loan Repayment Application screen (Award Type and LRP Subcategory). Updating your selections may result in the loss of your application data.

SUMMARY

Once you save your selections on the Initiate Loan Repayment Program Application screen, the Summary tab will be displayed on your screen. This tab provides information regarding your application, such as:

Application Identifier:

Make a note of this system-generated number. If you leave your application before you submit it, you can use this number to find the application the next time you log into ASSIST.

Application Project Title:

This field will be populated with your Research Project Title when you complete the field in the Research Information tab.

Application Close Date:

This is the deadline for you to submit your application. All supporting documentation (reference letters, mentor letter, and IBO certification) must be submitted by this date as well.

Applicant Name:

Your name will be listed here.

Organization:

Your research organization will be listed here.

Status:

This is the status of your LRP application. It will display as “Work in Progress” while you work on your application. You can confirm that your application was successfully submitted when the status displays as “Submitted”. It is important that you read the Application Submission section on pages 18-19 of this guide.

APPLICATION DATA

Award Type:

New or Renewal based on selection made on the Initiate LRP Application screen

LRP Intramural or Extramural:

Will indicate Intramural

LRP Subcategory:

Displays the LRP subcategory to which you are applying

Award Length:

LRP awards have contract periods that begin on July 1 following the application deadline. However, the contract period will be backdated up to the start of the NIH fiscal year (Oct 1) to take advantage of time served conducting qualified research at NIH. Your employment date entered by your IC LRP coordinator will be used to determine your contract period. The award periods are as follows:

- AIDS and Clinical Research for Individuals from Disadvantaged Backgrounds are two years in length
 - General Research and General Research for ACGME Fellows are three years in length
- All renewal awards are one year in length.

Mentored Research Scientist or Independent Investigator:

All intramural applications are automatically set at Mentored Research Scientist.

Preferred IC:

Select the NIH Institute or Center (IC) from the drop-down list where you are or will be employed.

Eligibility Questions:

Answer all questions in the ‘Eligibility’ tab by selecting either ‘Yes’ or ‘No’ in the corresponding buttons before clicking the submit button. Completing this section is not a guarantee of eligibility. Additionally,

the NIH LRP application process is competitive, and submission of an application does not guarantee an award.

PERSONAL INFORMATION

The NIH Division of Loan Repayment (DLR) collects personal information for important administrative purposes. Additional information, such as gender, race, ethnicity, and disability status are also collected here.

NIH Commons ID:

This will be populated based on your login

ORCID ID:

Enter your ORCID ID, if applicable

Name:

Enter your current legal first, middle (optional) and last name as it appears on your U.S. Passport, driver's license, or state issued identification. The name you enter here will be used to validate your electronic signatures before you submit your application.

Name (Other):

Enter a secondary name such as a maiden name or another name used professionally.

Work E-mail:

Enter your NIH email address if you have an account. Your work email address is the primary address used by NIH to communicate with you throughout the LRP application process. If you are being recruited to the NIH, use a personal email address (such as Gmail, Yahoo, Hotmail, etc.) in this space. Avoid using your current institution email address as that email may be discontinued during important stages of the application process.

Confirm Work E-mail:

For validation purposes, you are required to re-enter your work email address.

Other E-mail:

Enter your personal or alternative email address. We will use this email address in case you leave the NIH and we need to send important information (e.g., tax forms) after that transition.

U.S./Non-U.S.:

Select the appropriate button to indicate whether your primary mailing address is U.S. or foreign.

Home Address Line 1:

Enter your street address.

Home Address Line 2:

Enter apartment, suite, or condo number or other additional mailing information.

City:

Enter your mailing address city.

State:

Select your mailing address state from the drop-down list.

Zip Code:

Enter your mailing address zip code.

Country:

If you chose Non-U.S. above, enter your mailing address country from the drop-down list.

Work Phone:

Enter your work phone number.

Ext.:

Enter your work phone extension, if applicable.

Home Phone:

Enter your home phone number.

Cell Phone:

Enter your cell phone number.

Preferred Contact:

Indicate which phone number you would prefer to be reached at from the drop-down list.

Date of Birth:

Enter your date of birth.

Gender:

Select the appropriate radio button.

Race:

Select the appropriate checkbox(es). You may select more than one.

Ethnicity:

Select the appropriate radio button.

Disability Status:

Select the appropriate radio button.

How did you learn about the LRP?

Select applicable checkbox (es) from the list. You may make multiple selections from the list. If you select more than one, you will be asked to select how you initially heard about the LRPs.

EMPLOYMENT AND ACADEMIC AFFILIATION

Complete this section by entering information about your employer at NIH. Your organization associated with your Commons ID must be the same as the NIH IC you are applying from.

NIH Institute or Center:

Select the institute of Center (IC) from the drop-down menu.

Department:

Enter any departmental information

Additional Information (e.g., Center, Division, Branch, etc):

Enter any additional information if applicable

Position Title:

Select your title from the drop-down list. If you do not see your title among the choices provided, select "Other," and enter your position title in the free form box.

Annual Salary:

Enter your current compensation. The amount entered will be confirmed with a business official at your organization.

Start Date:

Enter the month and year of the date your employment started (or will start) with your organization in the following format MM/DD/YYYY.

EDUCATION AND TRAINING

Provide information about your academic and training history, including conferred degrees and post-doctoral fellowships. If you do not currently hold a qualifying degree, but anticipate it to be conferred before the start of your LRP award, you may still be eligible to apply. In this case, enter your expected degree date in the appropriate field below.

EDUCATION AND TRAINING: You must enter at least one qualifying degree by clicking the "Add New Entry" button. Once you have entered your qualifying degree, you may enter as many additional degrees as you wish by clicking the "Add New Entry" button.

Education:

Select your degree from among the choices by clicking on the radio buttons. Enter the conferring institution, select the degree year from the drop-down menus, add specialty, and add subspecialty. If the entry is complete, press "Save and Add."

RESIDENCY INFORMATION: If you have completed a residency, enter in the information by clicking the "Add Residency" button. You may enter more than one residency. If you have already entered an education and you need to add a residency, please press "View" on the specific education entry you wish to edit, then press "Edit" to adjust the entry or enter a residency.

Conferring Institution:

Enter the university, academic institution, or organization where you completed your residency.

Start Date:

Enter the start date of your residency.

End Date:

Enter the end date of your residency.

Percent of Time Spent on Research:

Enter the amount of time you spent conducting research as a percentage, 0-100, as whole number.

Specialty:

Enter your area of specialty study.

Subspecialty:

Enter your area of subspecialty study, if applicable.

POST-DOCTORAL FELLOWSHIP: To add a post-doctoral fellowship press “Edit” on the Education and Training menu and you will be able to select “Add New Entry” in the Postdoctoral Fellowship Information section. If you are currently in a fellowship, please enter the expected completion date. You may enter more than one fellowship.

Conferring Institution:

Enter the university, academic institution, or organization where you completed your fellowship.

Start Date:

Enter the start date of your fellowship.

End Date:

Enter the end date of your fellowship.

Percent of Time Spent on Research:

Enter in the amount of time you spent conducting research as a percentage, 0-100, as whole number.

Specialty:

Enter your area of specialty study.

Subspecialty:

Enter your area of subspecialty study, if applicable.

RESEARCH INFORMATION

The Research Information tab of the LRP Application requires you to develop and submit several research-related documents as it relates to your LRP application. You are encouraged to read all instructions below, including formatting instructions, as it is your responsibility to comply with all stated page limits and format requirements. Each intramural application type has specific document requirements that will be indicated on the research information tab of the ASSIST application. Formatting instructions are below:

Citations:

We do not require a specific style citation format; most style guides include guidance for citations and all are acceptable. If your organization does not already have a standard, we recommend that you use SciENcv, a tool to prepare biosketches for NIH and other agencies, using a standard style adopted by the National Library of Medicine.

Filenames:

Save all document attachments with descriptive filenames, as follows:

- Use unique filenames for all research document uploads (e.g., LRP_Biosketch or LRP_Biosketch v2)
- Use any of the following characters: A-Z, a-z, 0-9, underscore, hyphen, space, period, parenthesis, curly braces, square brackets, tilde, exclamation point, comma, semi colon, apostrophe, at symbol, number sign, dollar sign, percent sign, plus sign, and equal sign
- Use one space (not two or more) between words or characters and do not include a space immediately before the .pdf extension
- Avoid the use of ampersand (&) since it requires special formatting (i.e., &)

File Size:

Ensure file size is greater than 0 bytes and less than 5MB - we cannot accept a 0 byte attachment.

Format:

A single-column letter formatted to an 8 ½" x 11" page. Provide at least one-half inch margins (top, bottom, left, and right) for all pages. Include applicant name, titles, and Headings (e.g., Significance, Innovation) within the text of your attachments.

Font (size, color, type density) and Line Spacing:

Legibility is of paramount importance. Adherence to font size, type density, line spacing, and text color requirements is necessary to ensure readability and fairness. Text in your attachments must follow these minimum requirements: 11 points or larger, single spaced, and in black only (smaller text in figures, graphs, diagrams, and charts is acceptable as long as it is legible when the page is viewed at 100%). Ideal fonts include: Arial, Garamond, Georgia, Helvetica, Times New Roman, and Verdana.

Grantsmanship:

Use English and avoid jargon. Spell out acronyms the first time they are used and note the appropriate abbreviation in parentheses. The abbreviation may be used thereafter.

Headers and Footers:

Unless specified in the instructions, do not include headers or footers in your attachments. Section headings within the text of your attachments improve readability and are highly encouraged.

Hyperlinks and URLs:

Hyperlinks and URLs may not be used to provide additional information necessary to application review. Reviewers are not obligated to view linked sites.

Images:

Digital images of material such as electron micrographs or gels must only be included within the page limits of the Research Project/Activities attachment. The maximum size of images to be included should be approximately 1200 x 1500 pixels using 256 colors. Figures must be readable as printed on an 8 ½" x 11" page at normal (100%) scale.

Investigators must use image compression such as JPEG or PNG. Do not include figures or photographs as separate attachments in the Appendix or elsewhere in the application.

Page Limits:

Adhere to the stipulated character/page limits for each attachment included in your application. When completing and submitting your application, the system checks for application completeness but does not address page limit requirements. Such checks are completed by staff after application submission. You must comply with all documented page limits. Applications that exceed stipulated limits may be rejected.

Paper Size and Margins:

Use paper size no larger than standard letter paper size (8 ½" x 11"). Provide at least one-half inch margins (top, bottom, left, and right) for all pages. No applicant-supplied information can appear in the margins.

Scanning:

Avoid scanning text documents to produce the required PDFs. It is best to produce documents using your word-processing software and then convert the documents to PDF. Scanning paper documents may hamper automated processing of your application for agency analysis and reporting.

Security Features:

Our systems must be able to open and edit your attached documents to generate your assembled application image for agency processing and award consideration. It is important that you disable ALL security features in your PDF documents. Do not encrypt or password-protect your documents. Using these features to protect your documents prevents us from opening and processing them.

Single vs. Multi-Column Page Format:

A single-column page format easily adapts to various screen sizes and is highly encouraged. Multi-column formats, especially for information spanning multiple pages, can be problematic for online review.

RESEARCH INFORMATION AND ATTACHMENT INSTRUCTIONS: Include your name, date, and research document type (e.g., Personal Statement) at the top of the page. Mentored Researchers should develop research-related documents collaboratively with their research mentor. NIH expects that your mentor is sufficiently knowledgeable about the final submitted documents for certification purposes. You should work closely with your mentor to produce these documents prior to submission. Independent Researchers are expected to develop research-related documents without the assistance of a research mentor, though a third party may proofread these documents.

RESEARCH PROJECT/ACTIVITIES

Research Project Title:

Enter the title of your research project, using up to 200 characters.

Project Abstract:

In the space provided, please provide a summary or abstract of your research project, using up to 2,000 characters.

Upload Research Activities:

Page Limit: Eight (8) pages

Include your name, employer, title of research project, and date at the top of the first page of the document. Describe the research activities you will pursue over the course of the LRP award and your specific role and responsibilities. The plan should include: specific hypothesis/hypotheses and/or a list of the specific aims and/or objectives that will be pursued; a description of the methods/approaches/techniques to be used for each aim, and an analytic plan to be used on the data generated by your approach. Literature citations, images, and bibliography are included in the eight (8) page limit.

It is important to relate the research plan to your scientific career goals. Describe how the research, coupled with other developmental activities, will provide the experience, knowledge, and skills necessary to achieve the objectives of your career development plan.

Research Environment:

Page Limit: One (1) page

Describe your institution's scientific environment and how it will contribute to the probability of your success during your LRP award (e.g., institutional support, physical resources, intellectual rapport, availability of other experts, etc.). In describing the scientific environment in which the research will be conducted, discuss ways in which the research will benefit from unique features of the scientific environment and any useful collaborative arrangements.

Note for Mentored Researchers, also describe institutional investment in your success, e.g., resources for classes, travel, and training, etc. and financial support such as protected time for research with salary support.

Research Accomplishments (Renewal Applications Only):

Page Limit: Two (2) pages

Describe your research accomplishments as they occurred under your first LRP award and subsequent renewal awards (if any). If you experienced "time breaks" between LRP awards, the accomplishments statement should include research progress made during those time breaks. Your research accomplishments should emphasize the progress made toward the achievement of your specific aims as described in your research plan. Explain any significant changes to the specific aims and any new directions including changes to the specific aims that may have occurred during the LRP award(s) period.

Training and Mentoring Plan:

Page Limit: Two (2) pages

Describe your research training program and mentoring plan and explain how this plan will foster the development of your research career. Provide a description of your career development activities, such as seminars, reports, grant submissions, , professional groups, conferences, or seminars, etc. Additionally, the nature and extent of supervision should be discussed as they will occur during the award period. If another laboratory staff member will be involved in your mentoring program, provide his/her name, describe his/her degree of involvement.

NIH Biosketch:

Page Limit: Five (5) pages

Submit a non-fellowship biosketch in a specified NIH format. You may use SciENcv (discussed above) or the sample format on the Biographical Sketch Format Page to prepare your Biosketch. Your Biosketch should include a list of significant honors and grants.

Personal Statement:

Page Limit: One (1) page

Describe why you are a strong candidate for an LRP award and your potential to succeed as an independent researcher. Relevant factors may include: your previous research training and/or previous experimental work; your short and long-term academic and research objectives; any relevant academic/professional achievements or honors; any research project support awards; and any significant contributions to science.

COLLEAGUE INFORMATION

You should complete the Colleague Information section of the application at least two weeks before the submission deadline to give your referees, mentor, and IC LRP Coordinator time to submit documents in support of your application by the deadline. Once the colleague information is entered and the section saved without errors, an email will be sent to your colleagues with instructions to submit their documents. The NIH DLR will not contact your referees, you must reach out to them individually (see below).

Requesting Reference letters (New competitive applications only): A minimum of three, but no more than five reference letters may be submitted in support of your LRP application. To request a reference letter please direct your letter writer to the [Referee Portal](#). You must provide your referees with your NIH commons ID, which will be used by your referee to identify the application for their reference letter. All referees will receive a confirmation email when they submit their reference letters. You will also receive a confirmation email each time a reference letter is submitted on your behalf. You can track any submitted reference letter on the Status section in your Commons account.

RESEARCH SUPERVISOR: Your research supervisor will serve as your research mentor on your LRP application and is required to submit a letter of recommendation through the mentor's portal. For LRP participation we are required to collect your supervisor's contact information as a research supervisor is also someone who will perform the administrative function of confirming to NIH that you are meeting the terms and conditions of the LRP Contract on a quarterly basis. For General Research for ACGME fellows, the LRP supervisor is your ACGME program fellowship director.

Research Supervisor Name:

Enter your research supervisor's first, middle (optional), and last name.

Research Supervisor Email:

Enter your research supervisor's email address.

Confirm Research Supervisor Email:

Re-enter your Research Supervisor's email address.

Research Supervisor Organization:

Enter the place of employment of your research supervisor.

Research Supervisor Position Title:

Enter your research supervisor's job title.

Checkbox on Primary Mentor:

As an Intramural LRP applicant, your primary mentor and research supervisor are the same individual. You should check this box to populate the fields.

Primary Mentor Name:

For the Intramural LRPs, your primary mentor is your research supervisor, enter the first, middle (optional), and last name of your primary mentor or simply check the box to indicate this in the application.

Primary Mentor Email:

If applicable, enter your primary mentor's email address.

Confirm Primary Mentor Email:

Re-enter your primary mentor's email address.

Primary Mentor Organization:

Enter the place of employment of your mentor.

Primary Mentor Position Title:

Enter your mentor's job title.

Primary Mentor's Biosketch:

You must obtain a copy of your Mentor's Biosketch and upload here. The Biosketch must be in a specified NIH format and no more than 5 pages in length

Optional Additional Biosketch:

Some applicants have mentoring teams, a co-mentor, or a key recommender; you may upload the biosketch of this individual here. You may upload only one additional biosketch.

IC COORDINATOR: This official will be asked to confirm your full-time employment at NIH in the intramural research program for the contract period. For new applicants the IC coordinator will certify your salary, full-time employment start date, employment end date if temporary, your eligibility in the program, and U.S. citizenship. If you are renewing your LRP, the IC coordinator will certify that your appointment will cover the 1-year renewal period. You can contact your IC Coordinator on the [Contact and Engage](#) section on the LRP website. Please note that post-doctoral fellows and graduate students are not eligible to participate in intramural LRP and your IC Coordinator will not certify your application if you do not hold an eligible position at NIH. If awarded an LRP, your IC coordinator will also verify your service at NIH during the contract period.

NIH Commons ID:

Enter your IC Coordinator's Commons ID. You may populate the IC Coordinator's name and email address by clicking on the Populate fields from the Credentials box.

IC Coordinator's Organization:

This information is populated from the organization you selected on the Initiate LRP Application screen.

IC Coordinator Name:

Enter the first, middle (optional), and last name of your IBO.

IC Coordinator Email Address:

Enter your IBO's email address.

LOAN INFORMATION (NEW APPLICANTS ONLY)

(If you are applying for a renewal award, this tab will be intentionally blank.) New applicants must list their educational loans in this section. It is important to note that not all educational loans are eligible for repayment by the NIH LRPs. For example, foreign loans are not eligible for repayment. Please refer to the [LRP website for specific information regarding loan eligibility](#). If you enter a loan in this section that is ineligible, it will be removed from your loan portfolio. All the information necessary to complete this section should be available on your student loan account statement(s). At least one loan must be entered, but you should enter all the loans you wish to be considered for re payment by the LRP.

Loans from the same loan servicing agent and of the same loan type should be combined into a single entry (e.g., MOHELA, Stafford). To begin, click the "Add New Entry" button.

Name of Lending Institution/Servicing Agent:

Select the Lending Institution or Servicing Agent from the drop-down list. If you do not see your lender, select "Other".

Other:

If "Other" is selected above, enter the name of the Lending Institution/Servicing Agent in the free form box.

Loan Type:

Select the loan type from the drop-down list. If you do not find the loan type that matches your loan type, select "Other".

Other:

If "Other" is selected above, enter the loan type in the free form box.

Loan Origin:

Select the "U.S." or "Non-U.S." radio button to signify whether your loan originated in the United States.

Original Loan Amount:

Enter the amount you borrowed at the time the loan was initiated. Loans from the same lender, servicer, and of the same loan type should be combined into a single entry.

Current Balance:

Enter your current loan balance as it appears on your statement. Loans from the same lender, servicer, and of the same loan type should be combined into a single entry.

Loan Status:

Select your loan status from the drop-down list.

RESEARCH FUNDING INFORMATION

This section is not required for the Intramural LRP.

CERTIFY & SUBMIT

On the 'Certify & Submit' tab, you will be required to complete checkboxes to indicate that you have read the Certifications for Online Applications and your NIH Loan Repayment Program Contract. Completing these checkboxes serves as your signature on these documents.

Certifications for Online Applications:

Read all statements listed in this section and check the box next to each statement to signify your consent. You will enter your name as an electronic signature on the form.

NIH Loan Repayment Programs Contract:

Read the NIH Loan Repayment Programs Contract in its entirety and check the box next to the statement to signify your consent. You will enter your name as an electronic signature on the contract.

Disadvantaged Background Certification:

If you are applying to the Clinical Research for Individuals from Disadvantaged Backgrounds subcategory, complete this certification by checking at least one of the displayed boxes. To qualify for disadvantaged background status, you must upload the necessary documentation as a pdf attachment via the 'Add Attachment' feature. Only one support document can be uploaded so please combine any necessary support documents into a single pdf attachment.

APPLICATION SUBMISSION

Once you have completed all sections of the LRP application, look at the left-side navigation options on the left side of the screen. Each Action button is described below. Please review them carefully as your application will not be submitted until you complete this process.

PREVIEW APPLICATION:

To review your application prior to submission, click on the Preview Application button to download a PDF version of your application. Once downloaded, you can save and print the PDF. It is very important that you closely check to ensure that all the documents uploaded are correct, as you will not be able to update these documents after you submit your application.

VALIDATE APPLICATION:

Click on the VALIDATE APPLICATION button to check for any errors. If there are unfilled fields, invalid entries, or attachment issues, they will appear on the Application Errors and Warnings Results screen. Visit the section(s) of the application that indicate an error, and press "Edit" to complete or correct all required entries. After saving the section, re-click on the VALIDATE APPLICATION button to get an updated report. Please address each error individually and continue to press VALIDATE APPLICATION until no errors are detected.

VIEW STATUS HISTORY:

You can view your application status history, which lists any changes that were made to the status your application, including when you initiated and submitted your application. If you made any updates to

the award type, LRP subcategory, or your independent/mentored status, this information will be listed in your status history.

UPDATE SUBMISSION STATUS:

Once you have completed all the forms, all errors have been addressed, and the application has passed the validations, you can then submit your application by clicking on the UPDATE SUBMISSION STATUS action button. On the dialog window, select the “Ready for Submission” option from the drop-down list. Any comments you wish to enter in the text box are only visible to you. After completing this step, you will return to the Summary page of your application and you will see the status display as “Ready for Submission”. By clicking on the Submit Application button, the status will change to “Submitted”. You will receive confirmation via email.
